Mathis Model RM-52

Standard Duty Rear Mount
Three Point Hitch Type Plow

Model Shown: RM-52

Mathis Model RM-52 is equipped with 20" leading coulter followed by (2) 20" disc cutting clean flat bottom line approximately 2" deep. Coupled to tractor 3 point hitch arms, plow depth and level controlled by 3 point hitch and depth slide mounted under rear of plow. This model plow is designed for use with a wheel type tractor. Designed for lighter use on plantation, etc.

*When better plows are built, Mathis will build them.
-Mathis Plow Co*

The Model RM-52 coulter, middlebuster and disc boxes are the same basic design as the Model RM-500. We recommend pulling the RM-52 with 30-65 h.p. wheel type tractor.
